Professional Summary

Aspiring Data Scientist with hands-on experience in Power BI, SQL, Excel, Python, Machine learning and data visualization. Skilled in to build end-to-end analytics projects integrating machine learning models with Power BI dashboards to generate actionable business insights. Passionate about seeking an entry-level Data Scientist opportunity.

Education

Bachelor of Technology (B. Tech) – CSE | 2021 - 25

STMW | CGPA: 8.23

Intermediate – MPC | 2019 – 21

Sri Chaitanya Junior College | Percentage: 95.2%

SSC | 2019

Kiranam the high school | CGPA: 9.2

Skills

Programming: Python

Database: MySQL

Python Libraries: Pandas, NumPy, Matplotlib

Data Visualization: Power BI, Microsoft Excel

Machine Learning: Linear Regression, Random Forest, Logistic Regression

Tools: Jupyter Notebook, GitHub

Projects

Customer Churn Prediction using Machine Learning | Technologies - Python, Power BI

- Designed an end-to-end customer churn prediction system using Python, Pandas, Scikit-learn, and Power BI.
- Performed EDA to uncover patterns and features contributing to customer churn.
- Performed model training using Random Forest, and dashboard development to present actionable customer retention insights.

Employee Attrition and Retention Dashboard | Technologies - Machine Learning, Power BI

- Built an end-to-end employee analytics solution using Power BI and Python to analyse employee attrition and predict employee risk.
- Implemented a Random Forest model and integrated prediction results into Power BI to create interactive dashboards with KPIs and risk-based visualizations.

Certifications

Data Science & Machine learning | Datavalley.AI Pvt. Ltd
