Professional Summary

Aspiring Data Scientist with hands-on experience in Power BI, SQL, Excel, Python, Machine learning and data visualization. Skilled in to build end-to-end analytics projects integrating machine learning models with Power BI dashboards to generate actionable business insights. Passionate about seeking an entry-level Data Scientist opportunity.

Education

Bachelor of Technology (B. Tech) – CSE STMW, Guntur CGPA: 8.23	2021 - 25
Intermediate – MPC Sri Chaitanya Junior College Percentage: 95.2%	2019 – 21
SSC Kiranam the high school CGPA: 9.2	2019

Skills

Programming: Python
Data Analytics: Statistics, Exploratory Data Analysis (EDA)
Python Libraries: Pandas, NumPy, Matplotlib
Database: MySQL
Data Visualization: Power BI, Microsoft Excel
Machine Learning: Classification Algorithms, Regression Algorithms
Tools: GitHub, Jupyter Notebook

Projects

Customer Churn Prediction using Machine Learning | Technologies - Python, Power BI

- Designed an end-to-end customer churn prediction system using Python, Pandas, Scikit-learn, and Power BI.
- Performed EDA to uncover patterns and features contributing to customer churn.
- Performed model training and evaluation using multiple ML models (Logistic Regression, Random Forest, XGBoost), with an accuracy of 90%.

Employee Attrition and Retention Dashboard | Technologies - Machine Learning, Power BI

- Built an end-to-end employee analytics solution using Power BI and Python to analyse employee attrition and predict employee risk.
- Implemented a Random Forest model and integrated prediction results into Power BI to create interactive dashboards with KPIs and risk-based visualizations.

Internships

Data Science & Machine learning Intern | Data Valley.AI Pvt. Ltd

- Gained hands – on experience in data cleaning, analysis, and visualization using python and Ms Excel.
- Applied Data Science and Machine Learning concepts through practical tasks.
